Subject: Shorewood Stormwater Drain Clean
Importance: High

Mr. Heungkook Lim
Stormwater Management Engineer
City of Burien

Dear Mr. Lim,

A big thank you to both you and the City of Burien for helping us out with our problem regarding drain storm water runoff on Marine View Drive S.W. in the Shorewood geographic area.

All of the neighbors were impressed that the City of Burien took immediate action on this problem and demonstrated a concern for our properties. The personal response that the City of Burien initiated regarding this problem and the identification of the problem and its solution was nothing short of amazing. Also, the fact that the drains will be monitored to make sure that the problem is solved created a very positive reaction with the neighbors affected.

Though we were disappointed about the failure to clean the silt out of the our drains caused by the drainage ditch overflow problems experienced in the past, we feel somewhat better knowing that this situation may be solved in the future.

Please communicate our appreciation to your staff for such a timely response.

Joe Cail
